Are Steve and I missing the "skip SB-16" decision? Just wanted to make sure before we go to USAF/AMEC.

Wayne,

I attached the most recent ST012 drilling schedule received from Don, with a couple notes added. In particular, note that the entry for boring SB-16 states "Drilled but no well installed based on screening results." To my knowledge, that boring was not drilled, and we haven't see a boring log for it. Well LSZ53 was completed north of proposed SB-16 and had some odors in the CZ and UWBZ, and a possible positive dye test in the CZ. I believe that's the reason the SB-16 was not drilled, and a step-out boring for the CZ/UWBZ is necessary. We need to get a clarification on that.

Steve
